Our three-step plan:

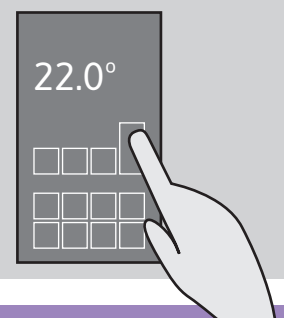

1 Register via our website WarmAanHetIJ.nl
After registration you will have access to your file ("Mijn dossier"). This is the place for your personal information, meter readings and invoices, but also for reporting changes and changes / relocation.

2 Top left: here you will find the energy meter with the unique serial number. You can also check this number and the meter readings when you register. You can read the meter (positions) with the control buttons.
Relevant meter information is listed on our website.

3 Using the control unit in the living room, you can set the desired temperature for each room and enjoy the comfort. On the website you will find information about the setting options, and the answers to frequently asked questions.
